LIFE IN MALTA

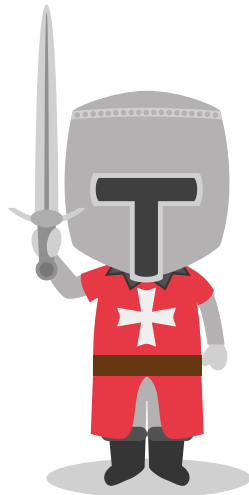

Located at the crossroads of Europe, Africa and Asia, Malta has benefited from multiple influences for centuries. The Maltese culture is particularly rich, with numerous historical sites all over the islands and Valletta recognized as a UNESCO World Heritage Site.

Malta's history goes as far back as 5900 BC, when the islands were populated by farmers. Malta has since been the scenery of a prosperous history, with successions of civilizations and colonisation periods, from the Phoenicians, the Romans, the Knights of the Order of St. John or the British protectorate that lasted for 150 years, to name a few.

With over 60 museums, 175 landmarks, 90 nature sites and parks, and countless fun indoor and outdoors activities, Malta offers a condensed experience of the vibrant Mediterranean life.

Influenced by Italian and British cuisine, the Maltese culinary art is rich and tasty, enriched by the flavours of sun-filled, locally grown fruits and vegetables.

Whether you are more interested in discovering the multiple crystal-clear water beaches and enjoying Malta's lively night-life, hike in nature reserves, discover the seabed diving, learn about European history and the essential role Malta played in World War II, go water skiing, abseiling, go-karting, jet-skiing, or meet people from all over the world, Malta has something to offer for everyone.

“Hi guys! My name is Marcela and I am a 24-year-old IELTS student from Columbia. I started with an Intensive English combo (General English + Conversation), then I changed and took Private Tuition on top of the regular classes and now I'm only taking General English. Private Tuition was perfect to help with things I didn't understand and made me improve faster. The teachers are amazing, I am in love with Malta and I don't want to leave!

“

I've been teaching for 16 years now and still find it thoroughly rewarding. I love meeting people from different backgrounds, learning styles and cultures. Empathy, patience and sensitivity are characteristics I identify with.

Some students need to improve their English level for their job which can increase stress levels. Other students, purely for their own interest in the language or for travelling. Humour and making the students feel at ease instils confidence and the realisation that you can only improve by making mistakes.

Julie, IELTS Gozo teacher

“

I have had a passion for spreading and sharing knowledge ever since I was a Boy Scout. Having worked as a trainer in IT, art, and well-being, English language teaching seemed the next natural step in helping people to achieve their goals. In nearly five years of teaching in Malta and Gozo, I have been deeply satisfied by the effect my lessons have had on my students. Two of my teenage students very sweetly drew and framed this portrait as a thank-you. I could never thank them enough in return, such are the rewards of teaching!

Ian, IELTS Gozo teacher

“I came to Malta because I got this opportunity to study English, this is great because my English is not yet good enough and I love to travel. I came here with a group of 8 people, I like it very much, I am improving my English. My favourite class is grammar because it is very important to speak. What I also like very much is making friends from other countries, learning about other cultures and meeting people with the same interests. “Hello! My name is Elisey, I'm a 17 year old Abitur student and I've been studying the Abitur course at IELS for 5 weeks. I enjoyed my studies a lot: every day we were doing important exercises which will be in my exam, writing necessary essays and exam topics and we didn't forget about having fun as well. We also watched many informative videos which were really exciting, had amusing speaking tasks and some activity games during the lesson every Friday.

I also enjoyed the activities in my programme, especially going to other Maltese Villages. My overall experience was really great, if you're looking for a good place to study English, trust me, you won't regret it!

“Signing up for the CELTA at IELTS was the best decision I could make professionally. It is a very intensive and challenging course. However, the knowledge and experience gathered is highly valuable and will benefit my future development. Tutors are highly professional, supportive and fair. All the guidance in teaching practice helped me a lot in developing as a teacher. The centre is very pleasant, a motivating environment. The staff and teachers are very helpful and I really feel that I have become a better teacher as a result of it.”

“My name is Tina, I work in an electric steering gear company in Liechtenstein and I am taking a year off to travel and finally learn English properly.

I am spending 6 months in Malta and 3 months each in Scotland and South Africa. I chose the Intensive class with General English and speaking class in the afternoon, and a few weeks ago I switched to Business+.

I chose Day's Inn for accommodation because it's near the school. You can cook, meet other students and the staff is very friendly and helpful, they helped me so often and it felt a bit like family.

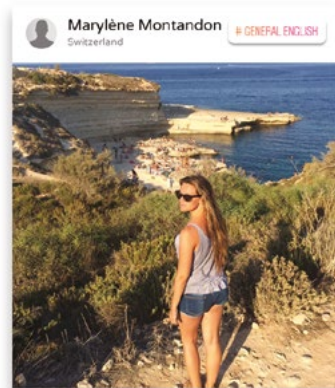

Clara and Frank are excellent teachers, they inspire and encourage students. The school offers something for everyone and you can decide freely in which direction you want to go and what you want to emphasize your study on.

I will do my Cambridge Exam in South Africa and have booked the Intensive Course.

Here, you feel welcomed and integrated, and it is easy to find friends. The school encourages you to grow and discover Malta. The lifestyle in Malta is easy going and very safe, people are very friendly and helpful, I would definitely recommend IELTS Malta!

Tina, General English, Conversation and Business English+ student

“

I loved so many things about my stay: my teacher Francesco, Gozo, Popeye's Village, Mdina, Valletta, Sliema, St Peter's Pool, and more. I have amazing memories! What I liked best at IELTS Sliema was the ambience, people were so nice and funny everywhere. The staff was always smiling and friendly, which is very helpful to learn and find the motivation to study. To me, staff like this is the key to keep students around! I had the best time there and I will never forget it. I can't wait to go back!

Marylène, General English student

”

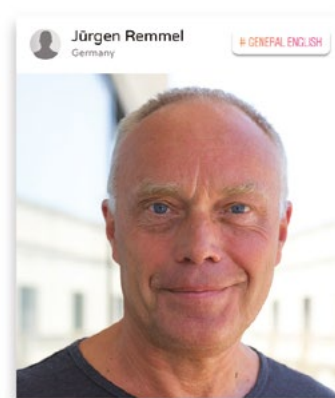

“

I decided to study English to get to know other cultures and other people. English also contributes significantly to improving my performance at work. The professors at IELTS are qualified and have the experience to guide the learning process of the students. The school has the infrastructure and facilities to create appropriate environments for teaching and learning, and takes care of logistical aspects (transportation and accommodation) I recommend language learning with IELTS in a special way!

“

This is my third time at the school in Gozo. This time I decided to choose the school residence because you share an apartment with other students from different countries. This is a really helpful choice to continue practising your English after classes. The teachers at IELTS Gozo are very helpful and skilled. You can also take part in many well-organised activities and don't forget there is a beach really close to the residence – the sea is clear, clean and refreshing.

Jürgen, General English student

“

The welcome is really wonderful! We receive all the support and motivation needed, and everyone here is amazing. Class material and books are really good as well, I am happy that I chose IELTS Gozo, thanks a lot!

“ I decided to go to Malta to do my second exchange because I thought it was a beautiful place to relax and study while I was on vacation. Since I am an English teacher in Brazil, I guess I can improve my learning every day, and, in my opinion, living abroad is the best way to do it, and it's also a fantastic experience.

I studied General English for 4 weeks in January, 2018. I loved the course, and my teacher was amazing and caring for the students. I don't have a word to complain about the staff at IELTS, they were all nice and kind.

I stayed at Day's Inn and everything there was awesome too: housekeeping, receptionists, friendly people... On my second day in Malta I was already in love with this country, which is an idyllic setting. I will cherish all the people I've met there and all the moments I've lived. My time in Malta could not have been better!

“

I chose Gozo because this island is small and very natural, with a lot less tourism than in Malta. I want to improve my English as it is the only language I use for traveling.

My teachers were very good and I had the advantage of learning in small classes. My favourite place in Gozo is Xlendi, I love it! I was very satisfied, I want to come back ;-)

Sabine, General English student

”

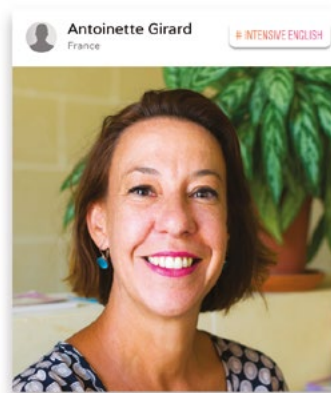

“

Very good teachers and it was easy to improve my English. All the staff is amazing, Viktoria, Catherine, and her husband Brian. They organise a lot of activities, like boat trips, walks around the island or a day in Valletta.

I recommend Gozo and the IELTS school and recommend to live in the residence too because it's very easy for everyone, very good ambiance here. Thanks to all of you!

Antoinette, Intensive English student

“

I wanted to strengthen my speaking skills as I'm a journalist and sometimes have interviews in English. I took a conversation class and it was perfect for me: I learned a lot of new vocabulary and now feel much more comfortable in English after this week.

Francesco, my teacher, was very kind, he always gives lessons with a smile in a very dynamic and friendly atmosphere.

“

I'm a Maths Teacher in Cyprus and attended General English Courses for 2 months. It was so important for my job, because we teach in English. This is a good opportunity to speak English all the day and make new friends. Malta gave me the chance to have friends all over the world. I am still keeping in touch with them.

I stayed at Day's Inn Residence that is really close to school and at the heart of Sliema. I had great time at school, I even took a level change test and changed my class to a higher level. I love my classmates and my teachers Ivan and Chris. It was the best time of my life, I miss Malta a lot!

My son Johann did a 1 week course to learn English basics. The one-to-one lessons with Carmen have been very useful for him. Before coming to Malta, he didn't want to learn to speak English despite the fact that part of his family is English speaking. The courses were very joyful, based on games and small exercises. He learned very fast and was happy to go to his English lessons every morning. We are coming back to Malta this summer... And he himself asked for additional lessons !

ALUMNI FLASHBACK

“ Hello, you all!

Well... Talking about my stay in Malta is the same as talking about one of the best experiences I have ever had in my life.

I took a General English course at IELTS for 4 weeks. These weeks have been wonderful and I have had the opportunity not only to improve the language, but also to meet people from all over the world and enjoyed some tours of Malta that the school itself offers.

To begin with, the very first day I was received with much kindness and joy. I was accompanied to the room where I made the student card (which is very important to visit museums and earn discounts in various places of the country) and the placement test. After taking the test and being placed in the advanced class (level C1), I had the first classes and it did not take long to notice that they were super interactive, fun and with practical application in our routine. All this was confirmed in the following weeks - the material adopted by the institution + the teacher + students from different countries = perfect combination.

I chose to study English because it is essential for my professional training: at university, I am a Liberal Arts student (Portuguese and English Languages as a Major). Besides, I intend to be a good translator and English teacher in the future. However, the gains I have made go beyond professional life - I feel more confident to travel, speak and use English in a variety of ways, I made great friends and felt comfortable exploring a country quite different from mine.

And talking about exploring, I could not fail to say that Malta is an island country full of culture and that it has a lot of history to tell us. Visiting its museums, I have known several archaeological finds that are more than 5 thousand years old! I saw paintings, sculptures, armour, weapons, and artefacts older than my own country. There are also several forts, paradisiac beaches, a unique architecture (how not to mention the beautiful balconies?) and delicious cuisine. To summarize, I usually say that Malta meets all tastes: if you like parties, there is Paceville. If you like adventure, there are several places to explore, climb and contemplate a stunning landscape; If you like cultural programs, there are theatres and shows; if you like history, there are many incredible museums and places to see. If you like sea ... then, definitely, this is the country for you to go!

Malta has become my destination since, a year ago, my boyfriend moved to the country. Needless to say that after several months away from each other, meeting him enriched my experience and made the moments even more magical and romantic.

I returned to Brazil with my bags full of the most intense and good feelings, extremely happy and with much nostalgia. I hope the time passes quickly so that soon I will come back and have many more stories to tell!

Lorrayne, IELTS alumni coming back soon!

“ The world has become smaller than ever before so one of most significant thing is learning English for business life. For this reason I’ve decided to come to Malta to improve my general English and it was such a wonderful experience for me. I also improved my English skills more than I expected.

Now I live in Toronto to keep studying English. Acquiring a new skill is a process, and it takes a long time.
I strongly recommend that people should start learning it as soon as possible, thank you IELTS!

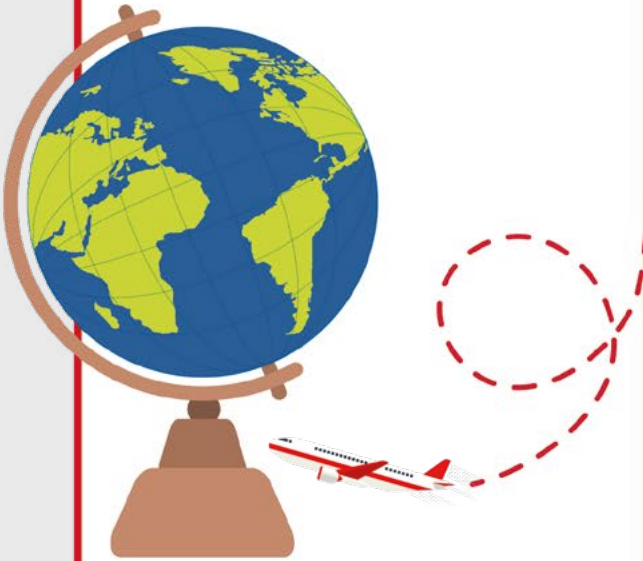

Mert, IELTS alumni on an English-learning journey
